

Allergies, ADHD, Autism, Learning Delay, or chronic illness?

Find out how Integrative Healthcare that includes biomedicine, allied therapies and neuro-development treats the whole person and helps a child reach their full potential.

Allergies and nutritional deficiencies are often misdiagnosed as ADHD or behavioural disorders. Chronic infections often reoccur until germs are accurately identified and treated. The metabolic-immunologic-neurologic-digestive systems are all closely linked and require an integrative approach to achieve optimal mental and physical health. Treating underlying causes reduces the need for treating symptoms with antibiotics, psychostimulants, histamines, puffers, cortisone cream and surgery.

More importantly, an integrative approach can help prevent disease.

Integrative Solutions

Newcastle, October 19, 2008

Would you ask a child with a broken leg to run faster? Asking a child with ADHD or learning delay to sit still or study harder is equivalent if there is an underlying medical condition.

Nutritional deficiencies, infections and toxicity of heavy metals and chemicals are behind the alarming rise in childhood disorders.*

Integrating biomedicine (digestive health, diet, nutritional medicine, and detoxing) along with other therapies can greatly improve outcomes. The key is an individualised approach by a trained practitioner.

* Dr. Kenneth Bock, *Healing The New Childhood Epidemics*

Integrative care can help treat a wide range of symptoms that include;

ADHD
allergies
Asthma
Autism
anxiety
bedwetting
behavioural issues
chronic infections
depression
digestive disorder
dyslexia
dyspraxia
eczema
food sensitivities
memory recall
motor coordination
reflux
sleeplessness
stinky breath

Did you know?

- 1 in 165 US, 1 in 150 UK and 1 in 120 Australian children are diagnosed with Autism?*
- ADHD, allergies, autism, asthma often share an underlying chemistry characterized by nutrient deficiencies, infections, and toxicity.**
- 70% of the neurotransmitters in your brain are also in your gut
- A healthy diet is not adequate if the gastro intestinal tract is not properly absorbing nutrients.
- Antibiotics, "the pill", refined carbohydrates, lack of breast-feeding, heavy metals and chemicals all disrupt the microbe balance of the GI tract which can lead to gut & immune disorders and nutritional deficiencies.
- Seemingly healthy foods like milk, bread, soy, egg and corn can adversely affect concentration, behaviour and immunity in a person struggling with digestive disorder, intolerances or allergies.
- Nutritional deficiencies can cause ADHD, allergies, eczema, asthma, speech issues, sleeplessness, hyperactivity, chronic fatigue, poor concentration, chronic illness and more.
- Most modern disease including ADHD, autism, allergies, asthma, cancer and heart disease are characterised by toxicity driving oxidative stress driving inflammation.*** Removing toxins and boosting nutrient levels are a preventative measure.

Metabolic
Immuno
Neurological
Digestive
Disorders

Key Note Speakers

Biomedicine **Dr. Antony Underwood**

Biomedicine effectively treats the individual by focusing on thorough medical assessment, testing and treatment. Correction of bio-chemical imbalances and infections can help treat and prevent Autism, ADHD, allergies and related auto-immune disease. *Dr. Antony Underwood is a Paediatrician based in Sydney who has helped pioneer Biomedical intervention in Australia for the treatment of ASD, ADHD and neuro-biological disorders*

Sensory Integration & Primitive Reflexes **Cate Larke** Dip Teach

Retained Primitive Reflexes often play a key role in learning and behavioural disorders. Since first discovering the key to her own son's problems, Cate Larke has spent the last 7 years specialising in this area of child development. *Cate is director of Essential Moves at Waratah, a specialist programme using movement to facilitate sensory integration.*

Neuro Integration **Mary Bourke** B.Sc.(Anat), BappSc(Chiro)

Cranial & spinal function affects the brain, the nervous and immune systems and the gastro intestinal tract. By clearing and resetting the nervous system, you can maximise a child's neuro-development and overall health. *Mary is a certified practitioner and educator of the Sacro-Occipital-Tehnique (SOT) with a diploma in Neuro Integration. She has served on the board of both the SOT and the Chiropractors Association.*

Choosing the Right Diet **Karen Wheelwright**

Special diets can alleviate a range of ASD issues including asthma, allergies, ADHD, eczema & digestive disorders. Feingold, Gluten-Free/Casein-Free, Specific Carbohydrate, Gut And Psychology Syndrome and low phenol, oxalate & salicylate diets can all be very effective in the right individual. *Karen Wheelwright is a nurse and Biomedical Consultant who reversed her son's Autism diagnosis by implementing the "right diet" in conjunction with biomedicine.*

Detoxification **Frances Dalton** ND DO

Emerging evidence implicates toxicity and resulting metabolic and gut dysfunction as contributing factors in a range of Childhood disorders. The Sichel Protocol focuses on detoxification by using diet, nutritional medicine and a range of natural detox tools. *Frances Dalton has trained extensively with Doctor Michael Sichel and has a practice in Sydney dedicated to treating autism and related neuro-biological disorders.*

Upcoming Mindd Events Sydney 2008

Allergy Elimination

Matthew Bourke
13 August
Bondi Jcn, NSW

Healing Foods

Sandra Ramacher
10 September
Bondi Jcn, NSW

Social Skills

Anca Ramsden
15 October
Bondi Junction

**Visit www.mindd.org or call
02 9337 3600
for more information.**

Intervention

Dr. Robyn Cosford
11 November
Bondi Junction

Solutions

10 Lectures
15-16 November
Darling Harbour

Learning Strategies

Jim Hoosan
10 December
Bondi Junction

Mindd Foundation is a non-profit
Health Promotion Trust.

Mindd International Seminar 7 March, 2009 Melbourne

Integrative Solutions for childhood auto-immune disease (ADHD, Autism, allergies, asthma, infections and more) from world experts Paul Shattock & Dr. Woody McGinnis, along with Australian experts in biomedicine, neuro-psychology, diet and neuro-therapies. The Sebel, Albert Park.

Mindd International Forum On Children 16-19 May 2009 Sydney

- Lectures from world leaders in Integrative Health Care will educate parents and train professionals on effective treatments for Autism, ADHD, allergies, asthma & learning delay (May 16-17)
- A public expo will present dozens of products and services to help develop a healthy and happy child (May 16-17)
- Physicians training on biomedical intervention will focus on assessing and treating the individual and will be lead and accredited by Defeat Autism Now!* (May 18-19).

* The American Academy of Pediatrics is working with DAN! to research and promote effective treatments for Autism Spectrum Disorders.

RACGP QA & CPD points

Registration Form

Time: 9am - 4pm
Date: Sunday, October 19, 2008
Place: South Leagues Club
Merewether
Newcastle
Cost: \$45/person

To reserve a place please pay via credit card at www.mindd.org/Events/Australia or mail this form with bank draft or money order to:

Mindd Foundation Pty Ltd
PO Box 151, Vacluse NSW 2030

Visit www.mindd.org for cancellation terms & conditions.
